

Please note that K-LOVE radio is vital to the health and growth of our community. I work with youth of all ages in my community, and K-Love is one of the positive influences in their lives. There is not another station in our valley that broadcasts the positive messages that K-LOVE provides. Their programming crosses all political and religious boundaries and is listened to by a diverse audience which brings our community closer together. Please do not do anything which would keep this excellent station from broadcast to our whole area.

Respectfully,

Linda M. Fischer
